Reporting: Head of Solution Development and Head of Solution Delivery

Main Purpose of the Job: As a Senior Technical Consultant, you will be at the forefront of client engagements and internal projects, leveraging your extensive technical expertise within the Microsoft Ecosystem. Your role will involve leading and contributing to the implementation of solutions, particularly focusing on Microsoft Servers, Applications, Microsoft 365, and Microsoft Azure. Additionally, you will play a pivotal strategic role, mentoring and growing the technical proficiency of the delivery team.

Main Job Responsibilities:

- Lead technical solution architecture and design for client implementations.
- Conduct technical presales and proof of concepts (POCs).
- Assist in proposal and solution documentation generation.
- Standardize technical documentation.
- Troubleshoot and resolve errors during projects.
- Collaborate with the technical team to deliver content management solutions.

Minimum Requirements:

Experience:

- Seven (7) or more years of experience with planning, migration, and implementation of various Microsoft Server technologies.
- Seven (7) or more years of experience with Microsoft Exchange Server.
- Seven (7) or more years of experience with Microsoft Office 365 and related services.
- Seven (7) or more years of experience with Microsoft Active Directory Domain Services.
- Five (5) or more years of experience with Windows Server.
- Three (3) or more years of experience with Microsoft 365 Security solutions.

- Three (2) or more years of experience with Microsoft 365 Purview solutions.

- Experience in leading/mentoring technical consultants.

Qualifications/Certifications:

- Grade 12/Matric

- TOGAF certified.

- Microsoft 365 Certified: Administrator Expert

- Microsoft Certified: Azure Security Engineer Associate

- Microsoft Certified: Cybersecurity Architect Expert

Beneficial Certifications:

- Microsoft Certified: Identity and Access Administrator Associate
