

Microsoft Purview Data Governance Accelerator Programme

A successful data governance programme requires business alignment, a realistic roadmap and a multi-disciplinary team to deliver sustainable people, process and technology change. Our Data Governance Accelerator Programme will help you to unlock and put to use powerful Microsoft Purview tools, maximise value from your Microsoft licence and encourage a company-wide compliance culture.

The challenge

- A moving landscape of national, international and industry regulations
- Rapidly evolving technology that requires specialist knowledge to deploy
- Lack of time, capacity and specialist skills to lead deployment Disjointed conversation between business, assurance and technical roles

Our solution

A subscription to our managed services and multi-disciplined team for delivery of a sustainable Microsoft Purview adoption programme. We help you **reduce risk and mature your compliance stance** by **removing barriers to adoption** of Microsoft Purview compliance solutions.

Monthly compliance panel Facilitated, decision-making forum for Microsoft controls with cross-business stakeholders

Technical deployment

Design and deployment of scoped workstreams with agreed objectives to implement Microsoft Purview capability

Management and reporting

Proactive management of your Microsoft Purview solutions with monthly health and usage checks

We deliver focus, coordination and drive

Our unique, multi-disciplinary team combines compliance knowledge with in-depth understanding of Microsoft technology. Working as an extension to your team, we provide leadership and stakeholder engagement, as well as the technical know-how to remove barriers to deployment and accelerate adoption of Microsoft Purview's powerful compliance tools and functionality.

Tailored for your

business As a managed service, our subscription model gives you access to our specialist team and resources in an outsourced capacity. Together we will develop a tailored roadmap, deliver scoped Microsoft Purview projects against agreed objectives and assist with the management, support and administration of your Microsoft 365 Purview solutions.

Reduce risk and achieve full value from your Microsoft licence investment

Cloud Essentials' Data Governance Accelerator Programme will drive faster and more effective adoption of Microsoft Purview tools allowing organisations to:

- Unlock Microsoft's powerful capability for compliance/risk measurement and monitoring
- Demonstrate compliance maturity, track progress and make measurable improvements
- Increase understanding, alignment and adoption of policies and technology
- Develop a company-wide compliance culture

"I found Cloud Essentials' approach [...] to be very effective at taking what seemed like a daunting and complex environment and breaking it down into sensible and easily consumable parts. Their depth of knowledge in this space is impressive."

BulkSMS.com

A practical and sustainable Microsoft compliance strategy for BulkSMS

Cloud Essentials worked closely with BulkSMS to raise awareness of their current compliance posture in relation to content and collaboration in Microsoft 365, and guarded against overestimating compliance maturity in some areas. Our interactive workshops brought more than just alignment with regulation, they also delivered a fresh way of thinking about data governance, looking at it in a practical way that combined people, process and technology. The output was a structured roadmap that delivered clear recommendations to underpin the client's ongoing data governance strategy.

Your compliance journey. Accelerated.

The Cloud Essentials difference

We firmly believe that the best solutions are just as much about people and processes as they are about technology.

We will always take your unique organisational context into account and ensure we leave you with the knowledge, skills and understanding that underpin a sustainable compliance strategy.

Uniquely, we speak the languages of IT, innovation, digital transformation, governance, risk AND compliance to help accelerate initiatives and deliver business benefits for everyone.
